

## **Climate Economy Action Nonprofit Formed**

On March 4, 2019 the Climate Economy Action Center of Addison County (CEACAC) was incorporated as a non-profit by filing with the VT Secretary of State.

The incorporators are: Fred Dunnington, Steve Maier, Andrea Murray, Spencer Putnam, and Amy Sheldon. An organization meeting is set to appoint an initial Board of Directors adopt bylaws and proceed with the application to the IRS for 501(c)3 status so that donations to CEACAC will be tax-deductible.

The purpose of forming CEACAC is to have an entity that is specifically focused on economic adaptation to climate change, by supporting area demonstration projects that achieve deep carbon reduction. This effort requires an active presence to engage area residents, businesses and institutions. An organization with staff and resources to advance this effort is needed, and thus, the incorporation of CEACAC to provide funds and support is a basic first step.

Besides the Board of Directors, CEACAC will have a Board of Advisors to help guide and support our cause. If you are interested in contributing or seek further information about CEACAC, contact Steve Maier at [sbmaier55@gmail.com](mailto:sbmaier55@gmail.com) or write to the Climate Economy Action Center at PO Box 86, Middlebury, VT 05653.
